

Quality Policy

The primary aim of Oxsensis Ltd is to excel in the design, manufacture, sale and support of optical instrumentation for precision control in harsh environments.

In meeting this aim, we shall achieve high levels of customer satisfaction by delivering reliable, high quality, cost effective products and services within agreed timeframes, thus generating the returns required to:

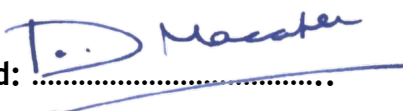

- Reward shareholders for their investment.
- Reward our people for their efforts.
- Provide funds to support future operations and company growth.
- Provide a stable and enjoyable workplace for our entire team.

Oxsensis Ltd is committed to the continual improvement of its performance by the monitoring of quality issues and through involvement with customers, suppliers, regulatory authorities and the community.

To help achieve these goals the company operates a Quality Management System which meets the requirements of AS9100 and ISO 9001.

Compliance and improvement is monitored by process measures and Quality Audits, it is maintained by the timely implementation and review of preventive and corrective actions.

Meeting high Quality Standards is the responsibility of our entire team. Oxsensis Ltd is therefore committed to working with all stakeholders to support effective operation of the company's Quality Management System, the achievement of our goals, and of our specific Quality Objectives.

Signed:
