

# Quality Policy

Oxsensis mission is to provide the best indication of operating conditions, enabling the right decisions in challenging environments. Serving energy, aerospace, and industrial processing industries with the most reliable and cost-effective optical sensing solutions, ensuring customer satisfaction.

Oxsensis values underpin our vision to become a class leading supplier of optical sensing solutions -

- **Safety:** Working together to ensure a safe and secure environment for each other.
- **Accountability:** Taking ownership and being accountable for our actions.
- **Respect:** Treating our colleagues, customers, and suppliers with respect at all times.
- **Support:** Ensuring our colleagues have everything they need to deliver.
- **Communicating:** Working proactively and communicating clearly with each other.

Oxsensis Ltd is committed to the continual improvement of its performance by the monitoring of quality issues and through involvement with customers, suppliers, regulatory authorities, and the community.

To help achieve these goals the company operates a Business Management System which meets the requirements of AS9100 and ISO 9001.

Compliance and improvement are monitored by process measures, internal and external audits, maintained by the timely implementation and review of corrective and preventive actions.

Oxsensis Ltd is committed to working with all stakeholders to support effective operation of the Business Management System, the achievement of our goals, and of our specific Quality Objectives.

Meeting high Quality Standards is the responsibility of our entire team.
